

It's time to  
**lower the boom** on  
old, worn-out poly.

With an **Express Boom Assembly** kit from John Deere, you can replace warped poly booms with durable **stainless steel** or change nozzle spacing as desired to maximize your sprayer performance for years to come.

Customize whole boom sections easily – and economically – on models **4630, 4700, 4710, 4720, 4730, 4830, 4920, 4930** and **4940** sprayers.

Ask about current financing specials  
when you use your John Deere  
Financial Multi-Use Account.

For more information about  
**Express Boom Assembly**,  
contact your John Deere  
dealer today.

## Express Boom Assembly

Modular, pre-assembled boom sections

# Get more bang from your boom. One section at a time.

## 5-Way High-flow Nozzle Body

Deliver the highest flow rates across the spraying pressure range – and support faster field speeds – with the 5-Way High-flow Nozzle Body, which lets you **change your spray nozzles easily**.

## Stainless Steel Boom

Upgrade your 1-inch poly boom assembly with stainless steel, which enables you to change nozzle spacing from 15 inches to 20 inches (or vice-versa) and to:

- **eliminate warping**
- **minimize cross contamination**
- **simplify clean out**

*Eliminate warping*

*Reduce risk of residue buildup*

## Express™ Nozzle Body End Cap

Turn spray on and off – quickly and decisively – with Express Nozzle Body End Caps that eliminate trapped air by allowing it to escape through the nozzle body. Other important benefits include:

- **less overspray**
- **fewer field streaks**
- **reduced risk of residue buildup**
